

# Central City Volleyball

Dear

I play volleyball for Central City Community School District and we enjoyed a great season, setting a lot of records as a team and as individuals for the program. A few of the highlights of our 2020 season were:

- Our JJV team went undefeated.
- Our JV team won their final tournament at Midland.
- Our Varsity team set four different school records (wins, kills, digs, and assists), and made it to the second round of regionals.

We would like to raise money to help pay for team camps, equipment, and Hudl membership for the 2021 season.

Team camps typically cost \$75-\$100 a player. For equipment we need ratchet straps for our net support system, and volleyballs for practices and games. We will also be planning on purchasing uniforms in the next couple years, so we will need to start saving up for those. Another major expense we have every year is our subscription to Hudl, which is where we place all of our games online. This currently costs us \$450 a season.

Each player is asked to raise \$100, which would bring in about \$2500 in this year's fundraiser. Would you please consider donating a small amount of money in order to help our Volleyball program? Thank you very much!

Sincerely,

Please fill in the form below and return.
